

Aluminium Vertical Slider **VS Plus**

Modern, Slim-line Aluminium Sash Windows

The 'VS Plus' Sash Window

The VS Plus has a clean and simple style, that is suitable for any application, but is perfect for use in all types of modern architecture. A low maintenance alternative to wooden sash windows with the advantages of a modern thermally broken aluminium profile. The system accepts 28mm sealed units and can achieve an overall U Values of 1.6W/m²K and a WER B rating. Ease of operation and excellent natural ventilation means that VS Plus is highly suited to high occupancy and commercial buildings.

The VS Plus comes with a range of robust and attractive hardware options and features a 'tilt in' operation that facilitates easy cleaning of the external glass. You can choose between a range of different glazing options, cills and bottom rails, in order to create many different styles and designs, to suit any property. VS Plus windows also feature concealed drainage and a concealed coupling option.

Features

- Slim sight-lines and the slim meeting rails of just 42mm.
- Maintenance free alternative to wooden box sash windows.
- A clean and simple window, perfect for modern architecture.
- Choice of flush square cill or sloped projection cill.
